

Mill-Courtland

Lasagna Garden Dig 

WHO, WHERE & WHEN

Neighbours of Mill-Courtland.

Mill-Courtland Community Centre. Tuesday, June 27, 2017.

WHAT

"We created two gardens to beautify our existing green space using a layered composting technique known as 'lasagna gardening'. We planted pollinating plants that would attract bees and butterfly's."

TO BE MORE INCLUSIVE...

This activity was advertised in many ways - door to door flyers, the school website, posters, and at the community centre.

There were food choices for everyone, including those with allergies and dietary restrictions.

There were tasks for everyone, regardless of ability, and they were able to contribute with their ideas.

Every individual was thanked for his/her time and support.

This activity was free.

SUCCESS!

"The neighbours felt good about their contribution to the garden.

They were happy to be a part of an event that made their community better!"

"We had volunteers of all ages, abilities and backgrounds. Everyone was given a task they felt comfortable performing. We made sure our volunteers were appreciated by acknowledging each person's strengths and values and by listening to everyone's ideas. Regardless of age, ability, religion, or background we treated every individual with respect."
